

We safeguard...

...what you value!

Grandmaster brings to you a diverse range of security products for the Banking, Non Banking, Hospitality, Retail, Gems & Jewellery segments, Gas Stations as also Corporate & Public Sector undertakings. Presented in this catalogue is our range of GrandAuro Safe Deposit Locker Cabinets that are engineered as per the latest technology and standards providing you an effective security solution thereby allowing you to breathe easy.

Grandmaster Innovations Pvt. Ltd., is a high quality security solutions company promoted by professionals who have decades of combined experience in entrepreneurship and marketing and were responsible for founding and successfully establishing the most sought after refrigeration brand 'Celfrost' in the Indian hospitality industry.

The **GrandAuro** range of physical security products are designed to the most stringent specifications and are manufactured by our group company Aurombica Engg. Co. Pvt. Ltd. under watchful quality control measures. **GrandAuro** Safe Deposit Locker Cabinets are designed in a variety of popular variants and are approved and listed by BIS as per IS:5244-2014 thereby ensuring reliability.

**GrandAuro** Safe Deposit Locker Cabinets are used by Banks and Private Safe Deposit Vault owners alike. **GrandAuro** Safe Deposit Locker Cabinets are manufactured in a modern plant equipped with the latest machinery and under a vigilant quality control.

## Safe Deposit Locker Cabinets

**GrandAuro** Safe Deposit Locker Cabinets are designed for exacting security requirements, while making the most efficient use of vault space featuring an ergonomic and attractive design. The lockers are manufactured as per IS:5244 specifications with fortified framework and fabricated from high quality tested steel plates. Joints are welded by skilled and qualified welders using approved quality welding consumables as per AWS standards that ensure optimal rigidity, strength and accuracy.

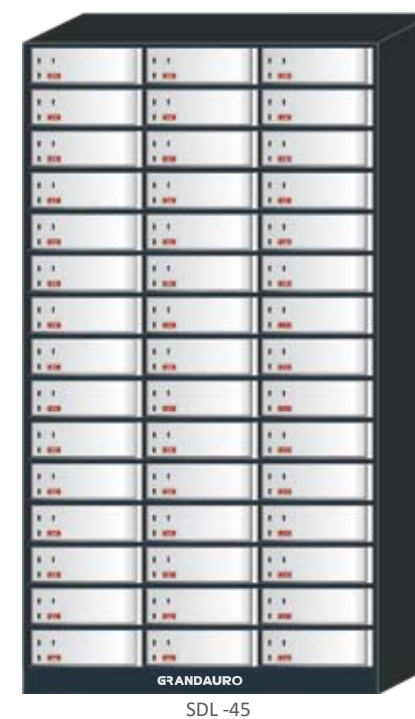

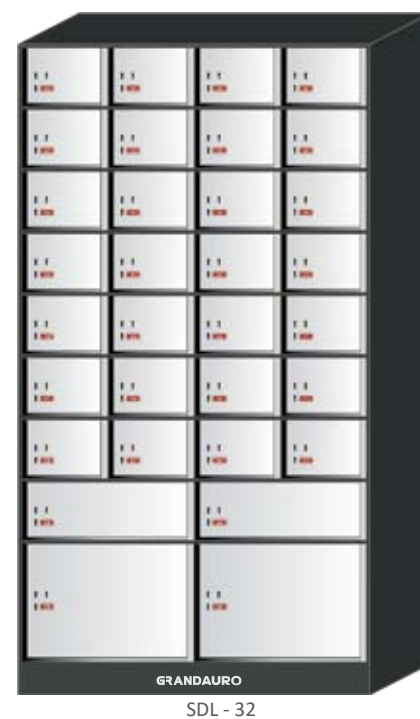

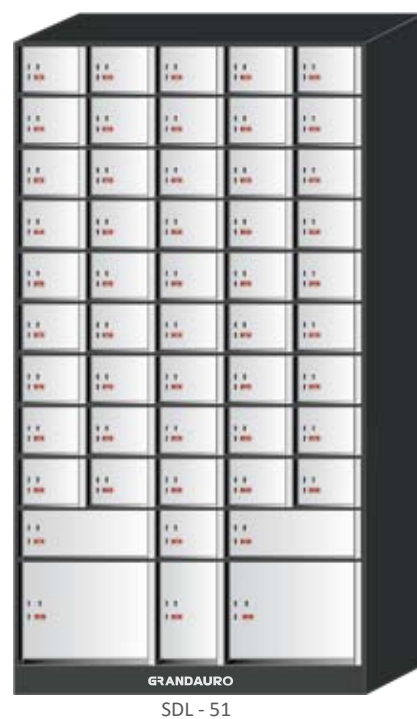

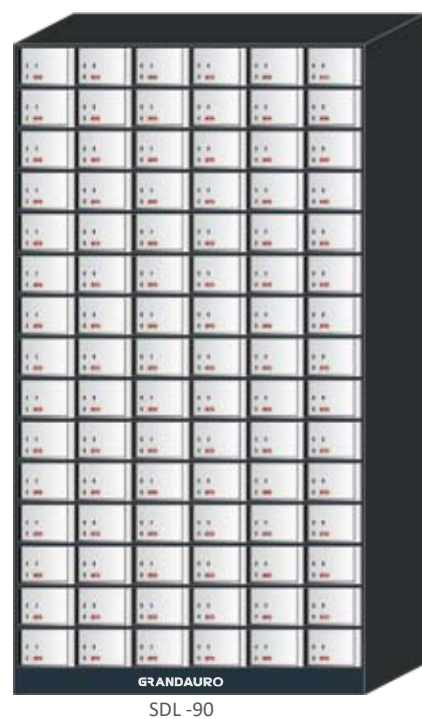

All steel parts used on **GrandAuro** products are subject to anti-rust and anti-corrosion treatment in latest '8 tank' anti rust treatment plant as per IS:6005 and IS:3618. The process involves degreasing, pickling, phosphating, passivation before giving final finishing in a high quality paint and oven baked for a durable and lasting finish. Doors and hinges are further protected by anodized aluminum covers.

The safe deposit locker is fitted with special dual control 7 lever safe deposit locking arrangement in each individual locker. These locks are cannot operated except with original keys thus ensuring utmost security.

**GrandAuro** can also provide personal lock known as 'renter's own lock' from inside for total protection where the customer retains the key. The locks have self-locking mechanism so that custodian doesn't have to relock the locker with his key after lessee has locked it. The mechanism of the lock is such that the lessee shall not be able to withdraw his key unless the locker has been relocked fully. The locks are interchangeable so that locks of vacated lockers can be changed. Overall pad locking systems can also be provided so that customers can use their own padlocks for more confidence.

**GrandAuro** offers a wide range of safe deposit lockers as per the configuration mentioned in the Table. In addition to, we also offer customised Safe Deposit Lockers that enable the most efficient use of available space.

Accessories such as movable inspection tables, step ladders, and low settees are also available on request.

## Safe-Cum-Safe Deposit Locker

Overall Dimension (in mm)				
Model	Height	Width	Depth	Type of Locker
SSDL-61/29	1550	785	730	A-27 D-02
